

Marius Rimmler, PHD student @

living in Duesseldorf

last beam time

- Cyclotron JULIC of COSY facility (protons/deuterons – 45/76 MeV, ~ uA)
- Test facility for future neutron source

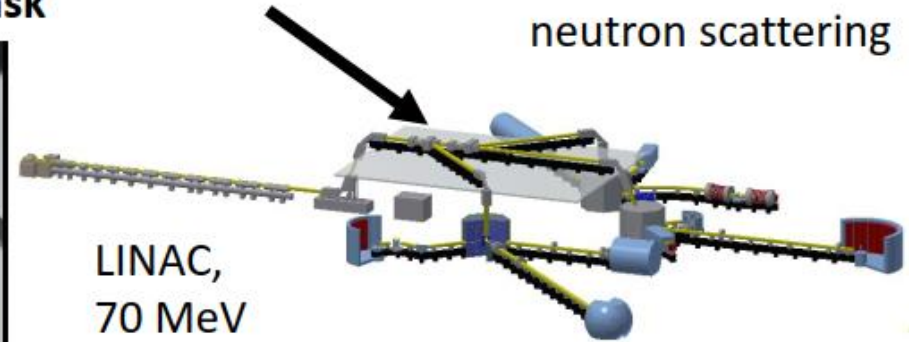

Rectangular Ship

HBS – High Brilliance neutron Source

The HBS project

Multiplex beam:
my task

3 Ta target stations
and instruments for
neutron scattering

LINAC,
70 MeV
100 mA
protons
