

Todor Todorčević – single slide presentation

Education / Work

- 2004-2009: Master studies in electrical and computer engineering on ultrafast HIL systems (University of Novi Sad, Serbia)
- 2010-2014: PhD on power converter for wave energy harvesting (TU Delft, The Netherlands)
- Dec. 2014 to Aug. 2015: Postdoc at TU Delft
- Since Sep. 2015: CERN staff member (LD) of TE-EPC-FPC (Switzerland)

Published 13 conference papers and 1 journal paper

CERN

- LIU-PS project: WU holder for powering of PI.SMH42
- CONS-PS: WU holder for powering of BSW, SMH and QKE magnets
- CONS-AD: engineer in charge for powering of magnets for inject. and extra.
- LIU-PSB: powering of stripping foil chicane (L4 → PSB)
- 3MeV modulator development for L4 RFQ ...
