

The CERN Accelerator School and the Niels Bohr Institute of the University of Copenhagen are organizing the next biannual general course on

# Advanced Accelerator Physics

9-21 June 2019

Metalskolen,  
Slangerup, Denmark

The course will be of interest to physicists and engineers who wish to extend their knowledge on accelerator physics and technologies. The course offers core lectures in the mornings combined with hands-on tuition in the afternoons. Participants will be able to select one afternoon course from the following three: optics design, beam instrumentation and RF-measurements. Due to the afternoon courses the number of students will be limited to 75.
