

❖ Past:

- Senior physicist at CEA with 30 years of experience in experimental nuclear and particle physics
- Experiments at ALS (Saclay 700 MeV e-), SLAC, FERMILAB, NIKHEFK, JLAB, CERN SPS
- Skills in data analysis, large detector installations and commissioning, superconducting magnet repair and characterization
- Group management, chair of publication committees, referee for PRL

❖ Present:

- Since June 2014, head of a laboratory of 20 people at CEA dealing with « Integration of accelerator and RF systems »

❖ Future:

- Acquire/improve technical skills for taking the best management and strategy decisions in my new job
- If possible, define new directions for R&D in SRF in collaboration with international partners (CERN, JLAB, DESY, Daresbury, ...)
