

My journey to Sesimbra:

- 1) Friday: Laser-lab until late
carresing our PW-Laser ATLAS 3000 and
preparing some LWFA experiments
- 2) Saturday-Monday:
hiking deep in
the woods
- 3) from now on: a shitload of wicked physics - Yippee!
(and hopefully some leisure time at the beach)

Publications:

- Moritz Foerster: **Tales of good food**, *self-published 2015*
-> *ok not too physics related, but fun and tasty!*
