

The CERN Accelerator School &
The Czech Technical University in Prague
(Faculty of Nuclear Sciences and Physical Engineering)
are organizing a course on

INTRODUCTION TO ACCELERATOR PHYSICS

31 August – 12 September, 2014

Prague, Czech Republic

This Introductory Course will be of interest to staff from laboratories, universities and companies manufacturing accelerator equipment, who wish to learn about accelerator science and technology.

The course will focus on various aspects of beam dynamics and will provide an introduction to the underlying accelerator systems. Key topics will be consolidated through a series of tutorials, while topical seminars will complete the programme.
