

The CERN Accelerator School and The Slovak University of Technology
will organise a course on

Ion Sources

29 May - 8 June, 2012 | HOTEL SENEK, Senec, Slovakia

This course will mainly be of interest to staff in accelerator laboratories, university departments and companies manufacturing accelerator equipment. Following some recapitulation lectures on background accelerator physics and the fundamental processes of atomic and plasma physics, the course will cover a wide range of topics related to ion sources and highlight the latest developments in the field. Realistic case studies and topical seminars will complete the programme.
